THE FIRST-CLASS PRODUCTS IN THE WORLD,
BUILD EVERY DETAIL WITH HEART

管道外对口器

EXTERNAL LINE-UP CLAMP >>>

管道外对口器是管道施工中特殊工况下管道对口作业必不可少的设备,WD系列管道外对口器可适应2"-80"不同材质的碳钢管道对口作业使用。

External line-up clamps are essential tools for pipe jointing at special working conditions during pipeline construction, WD series external line-up clamps are suitable for jointing of 2" ~80" a variety of carbon steel pipes

专利PATENT: ZL201220126860.6

对口精度高: 错边量小于2mm

操作便捷: 单一口径设计制造, 无需调整

局部调整机构: 调整局部错边, 轻便可靠

重量轻: 方便人工搬运

- High matching accuracy, unfitness of butt joint is below 2mm.
- Easy operation, single diameter designing, no needs to do adjustment.
- Sectional adjustment system, sectional adjustment of unfitness of butt joint, it is convenient, reasonable and reliable.
- Light and easy to carry

第一步: 拉紧外圈
First step: tightening the outer ring

第二步: 局部调整错边
Second step: sectional adjustment of unfitness

第三步: 间断焊接
Third step: intermittent welding

技术参数 TECHNICAL SPECIFICATIONS >>>

名称 Name	适用范围 Applicable range	特点 Feature	对口精度 Matching Accuracy
钳式外对口器 Clamp type external line up clamp	2" -5" (50-141mm)	钳上即可 Adjustment have been done once clamping	错边量 ≤ 0.5mm unfitness of butt joint ≤ 0.5mm
机械单头丝杠式外对口器 Manual single threadscrew-rod-type external Pipe line-up clamp	6" -8" (168-219mm)	操作简便, 对口效率高(无需调整) Easy operation, high efficiency (no needs to do adjustment)	错边量 ≤ 1mm unfitness of butt joint ≤ 1mm
机械杠杆式外对口器 Manual lever-type external pipe line-up clamp	8" -14" (219-355mm)		
机械矩形丝杠式外对口器 Manual rectangle screw-rod-type external pipe line-up clamp	14" -48" (355-1219mm)	拉紧力大, 配有3-8套局部错边调整机构, 单一口径对口作业, 对口效率高(无需调整)	错边量 ≤ 1.5mm unfitness of butt joint ≤ 1.5mm
独立液压式外对口器 Independent hydraulic external pipe line-up clamp	28" (711mm) 以上 UP 32" (813mm)	Large tightening force, equipped with 3-8 sets of sectional unfitness adjustment mech anisms, only workable for one single size pipe, high efficiency (no needs to do adjustment).	
液压分离式外对口器 Hydraulic disconnected-type external pipe line-up clamp	32" (813mm) 以上 UP 32" (813mm)
